

Clinician

The Hope Institute for Children and Families seeks to hire a Clinician for The Autism Program (TAP). The Autism Program fosters the development of community networks that promote best practices in the diagnosis, treatment and education of children with Autism Spectrum Disorder (ASD) and provides complementary and supplementary services in each facet of the system of care. The Clinician will consult with families, educators and other professionals to meet the needs of individuals with ASD; provide resources on best practices and available services to families and providers; and assist in providing supplementary and complementary service through social skills training groups, counseling and parent programs.

Qualified candidates must possess a master's degree and licensure in Psychology, Social Work, or a related human services field. Prior experience in working with individuals with ASD preferred, but not necessary.

The Hope Institute offers a competitive salary and benefit package as well as the opportunity to encourage and enhance an environment that promotes independent living for the youth we serve.

Qualified candidates, please submit resume to:
The Hope Institute for Children and Families
